

4 Common Layouts – right to left

Single column, 2 column left sidebar, 2 column right sidebar, 3 column.

Menu areas shown for examples are just some of the options.

3 Column - Partial Page Decorator

Columns can be used to customize layout as shown, and other ways. In the example a fansite type layout doesn't require nearly as much theming due to layout.

Slider on Page Example

Video/Images with controls - can be placed on virtually any page type depending on theme.

Video/image in widget - works on some themes - better than others

Chatbox options > locations vs pages

Page layouts can incorporate too many features to list – but it's important to note that some of these features change the available space depending on how and where they are incorporated so take some time when deciding on layout options.
